Hyperlock Detacher

Introduction

The Hyperlock Detacher is specially designed for the quick and easy release of HyperLock tags attached to products. Designed to be durable, its built-in magnet is incredibly strong, resisting the easy loss of magnetism over time. Convenient to use, it can be installed onto a flat surface and directly used from there, or freely held in the hand.

Features

Adaptability

Up to 14500 GS super magnetic, can unlock most of the EAS Labels which unlocked through magnetic force.

Security

The rugged shell protects the magnetic material while isolating the magnetic field, preventing interference with electrical equipment or accidental inhalation of foreign matter.

Good Detection Effect

High detection rate, good anti-theft effect.

Scene

The detacher can detach various EAS Labels.
