

Industry Mode

Diagram illustrating the Industry Mode configuration for VTS8A40B/VTS5A40B. The system consists of two base stations (VTS8A40B/VTS5A40B) connected via RJ45 ports to a central network. Each base station is connected to four slave units. A 'Call Transfer' arrow indicates the connection between the two base stations. A security camera is connected to the right base station.

Buidlings Mode
